

ECHO SPARKS

Sounds Of The New Old West

Echo Sparks is an Orange County trio that harkens back to Old California – a place that doesn't really exist anymore, except in sleepy little towns along obscure highways dotted with orange groves, cattle ranches, meandering rivers and cotton trees. They were born of dirt, hopeless love affairs, and drive-thru dairies. They're traveling musical evangelists... or snake-oil sellers; take your pick.

Reviews for Ghost Town Girl:

No Depression "For the first time in a long time, I was able to picture a band having a good time in the recording studio, and that comes across in pretty much every song."

Nashville Music Guide "Ghost Town Girl is like taking a ride down the sunny California strip with the top rolled down, sun in your face, hair blowing in the breeze. Old-school times in the days of life gone by. Times of dirt roads, traveling medicine shows, and gold mines. The songs on this album are transcending."

Elmore Magazine "Their song "I Think It's You" reaches across any crowded room to fill an empty space that has been musically lacking for the past five decades. Musical evangelists Echo Sparks have a sound that feels immediately tangible, pure and 100 percent authentic."
